## **Exhibition “Individual and Nature in Natural Science textbooks in the 19th, 20th and 21st centuries”**

Exhibition designed within the framework of the project “Individual, nature and society: study of their relationships and representations in school textbooks in Spain and Portugal in the last third of the 20th century” (Reference PID2020-115282GA-I00 Proyectos I+D 2020, of the Ministry of Science and Innovation).

The exhibition is a small illustrative sample of the Natural Sciences textbooks published in Spain for the transmission of natural-scientific knowledge. The aim of the exhibition is threefold: to show the evolution of the aesthetics and design of the textbooks over the centuries; to show how the names of the school discipline changed in the curricula and textbooks; and to demonstrate the transition from a scientific, descriptive teaching, disconnected from the human being, to a more ecological approach of connection and belonging of the individual to his or her natural environment.

The exhibition was presented for the first time at **VENTUCIENCIA**, the 1st Science Fair in Venturada (Madrid), which was held on 5, 6 and 7 May 2023.

## **Exhibition “FLORA, or the education of a girl in traditional society”**

**Central Library of UNED, from 28 September to 21 October 2022**

Click to see the video

This exhibition was an initiative of the MANES Research Centre and the [International Centre for School Culture \(CEINCE\)](#) of Berlanga de Duero (Soria), to commemorate

**the 50th anniversary of the foundation of UNED and the 30th anniversary of the creation of the MANES Centre. The Cultural Activities Commission of the Library and the General Archive of the UNED, as well as the Faculty of Education, are collaborating in the organisation.**

The exhibition explores and promotes a portrayal of the education of women in traditional society, an image based on differentiation and exclusion, categories and values that dominated the education of women in the 19th century and the first half of the 20th century. Textbooks and school material in which the education of women in the past has been reflected were displayed, with the aim of contrasting the experiences of the past with the expectations of inclusion that the new gender relations postulate.

The material on display comes from the MANES Fund of UNED Library, the MANES Historical Fund kept in the General Archive of UNED, and the CEINCE.

The exhibition was inaugurated on 28 September 2022, at 11:00 a.m., in the UNED Library (Paseo Senda del Rey, 5), followed by a round table on the theme “School memory of women in Franco’s regime”. Four women took part in this round table, which was held at 12:00 p.m. in the Faculty of Law of UNED, sharing their experiences in their schools for girls in the 60s and 70s of the last century.
